

PARWELD DATA SHEET

WT1222 Welder Tent

Part Number

WT1222
WT1222/C

Description

Welders Tent 2x2 FR reinforced PVC
Cover for Welders Tent 2x2 FR reinforced PVC

Description

The Parweld Welding Tent (Multi-purpose Shelter) is a ready foldaway mobile shelter, fabricated using a sturdy zinc-plated tubular steel. The shelter has a heavy-duty welded flame retardant reinforced PVC cover and heavy-duty canvas. The cover has a toggle corded access on two facing sides, which enables easy access for both personnel and machinery. It can be used as a welding shelter, a work shelter or a site hut.

Shipping

The welder's tent is supplied boxes one for the cover and one for the steel framing.

Standards

Parweld Welding Tent conforms to BS EN ISO 25980:2014 and provide protection against arc light and UV/IR radiation for non welding personnel.
